

Total Support

Relieving the pain of managing your Atlassian tools.

How does it work?

Total Support provides an outsourced team of trusted Atlassian experts to help you manage the full Atlassian Stack. Access our experts with ease via the Total Support service desk, then sit back and wait for the cavalry to arrive.

What do I get access to?

Total Support is a flexible, full-Stack service wrap. It includes administration and toolset management, coaching, mentoring, training services, and technical consultants.

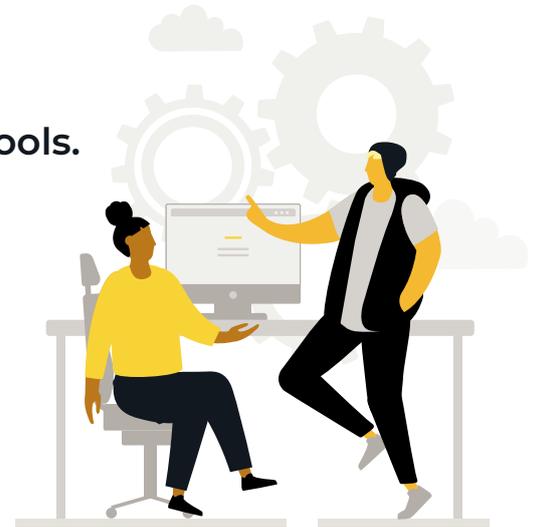

Are all my tools covered?

Yes. All Atlassian tools are covered - Cloud, Server and Data Center platforms. Any combination, any configuration. If you have Atlassian tools, you can benefit from Total Support.

Why Total Support?

Total Support is a convenient way of gaining expert knowledge across a vast range of Atlassian challenges. You get exactly the help you need when you need it. Save time by avoiding drawn-out procurement processes and save money not having to hire expensive resources.

It's Total Support for total peace of mind.

Teams

Teams that support Atlassian want answers quickly. They often don't have all the skills or the capacity to deal with user requests.

Total Support

Total Support empowers teams to stay focused on their core functions, not bogged down with toolset management and administration.

Success

You now have the freedom to excel in your job with a company you can depend on to cover your Atlassian applications.

Productivity Benefits

Reliability

An experienced Atlassian team trusted by some of the largest organisations in the world to help manage Atlassian infrastructures.

In an emergency

The ability to recover from disasters quickly with critical cover, so that your teams don't feel the pressure.

Reduction in tickets

Helping to reduce internal Atlassian incidents and requests through mentoring, education, and service.

Unburden your teams

Take the burden of managing your Atlassian apps away, so your team can focus on important projects.

All the benefits, without the cost

The unique and flexible subscription model of Total Support is 80% cheaper than hiring resources and typically costs 10% of a managed service.

Streamline processes

Knowing that you can escalate support issues quickly allows for a streamlined channel to get you the help you need.

Total Cost of Ownership

- Dedicated Atlassian expert

€58k pa

Based on ITjobswatch median salary for an Atlassian administrator working full-time March 2022.

- In-house resources

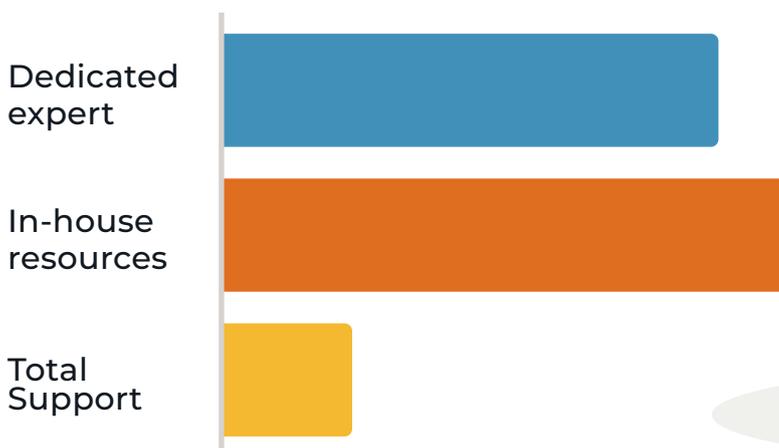

€67k pa

Based on utilising a 4-person support team 50% of the time for Atlassian application management and projects. Median salary of £28,500, ITjobswatch March 2022*.

- Total Support

€14k pa

Based on small tier Total Support cost with 24h support and 50hrs of professional services over 12 months*.

Has supporting Atlassian apps become a hobby?

We understand the pain of trying to do a day job whilst managing Atlassian apps as a side hobby.

As the Atlassian ecosystem expands in complexity and scope, it takes an increasing amount of time and energy to keep on top of new technologies. It's hard to upskill your team, maintain internal requests for help, integrate applications, and manage user behaviours. Hiring people to help can be a headache, and onboarding can be time-consuming.

That's where we come in...
