# Total Support

## Relieving the pain of managing your Atlassian tools.

### How does it work?

Total Support provides an outsourced team of trusted Atlassian experts to help you manage the full Atlassian Stack. Access our experts with ease via the Total Support service desk, then sit back and wait for the cavalry to arrive.

### What do I get access to?

Total Support is a flexible, full-Stack service wrap. It includes administration and toolset management, coaching, mentoring, training services, and technical consultants.

### Are all my tools covered?

Yes. All Atlassian tools are covered - Cloud, Server and Data Center platforms. Any combination, any configuration. If you have Atlassian tools, you can benefit from Total Support.

### Why Total Support?

Total Support is a convenient way of gaining expert knowledge across a vast range of Atlassian challenges. You get exactly the help you need when you need it. Save time by avoiding drawn-out procurement processes and save money not having to hire expensive resources.

It's Total Support for total peace of mind.

### Get Covered

- Expert Support
- Administration
- Optimisation
- Configuration
- Coaching/Training
- Solution Design

## Teams

Teams that support Atlassian want answers quickly. They often don't have all the skills or the capacity to deal with user requests.

## Total Support

ATLASSIAN

Total Support empowers teams to stay focused on their core functions, not bogged down with toolset management and administration.

## Success

You now have the freedom to excel in your job with a company you can depend on to cover your Atlassian applications.

**Has supporting Atlassian apps become a hobby?**

We understand the pain of trying to do a day job whilst managing Atlassian apps as a side hobby.

As the Atlassian ecosystem expands in complexity and scope, it takes an increasing amount of time and energy to keep on top of new technologies. It's hard to upskill your team, maintain internal requests for help, integrate applications, and manage user behaviours. Hiring people to help can be a headache, and onboarding can be time-consuming.

That's where we come in...

# Plans and Features
